Background: The Administrator of the U.S. General Services Administration established the Committee on June 20, 2011 (Federal Register / Vol. 76, No. 118) pursuant to Section 494 of the Energy Independence and Security Act of 2007 (EISA, 42 U.S.C. 17123). Under this authority, the Committee advises GSA on the rapid transformation of the Federal building portfolio to sustainable technologies and practices. The Committee reviews strategic plans, products and activities of the Office of Federal High-Performance Green Buildings and provides advice regarding how the Office can accomplish its mission most effectively.

The Portfolio Prioritization task group is pursuing the motion of two committee members to "propose a process for Federal agencies to consistently incorporate green building and resilience requirements into their capital investment criteria and strategies." The Energy Use Index task group is pursuing the motion of a committee member to "develop guidelines for creating a new energy intensity metric [to reflect impacts of] densified facilities, centrally located workplace sites...and expansion of telework and hoteling."

Both groups have met previously and had their work endorsed by the full Committee at its April 23, 2015 meeting. The conference calls will focus on how the task

groups can further refine these motions into final consensus recommendations of each group to the full Committee, which will in turn decide whether to proceed with formal advice to GSA based upon these recommendations. Additional background information and updates will be posted on GSA's website at <http://www.gsa.gov/gbac>.

Dated: May 14, 2015.

Federal Director,
Office of Federal High-Performance Green Buildings,
